

**IMAGINE MAKING A DIAGNOSIS ON THE SPOT,**  
to share with your client, anywhere, anytime.

**IMAGINE VIEWING DETAIL-RICH X-RAYS**  
on your laptop, in just thirty-five seconds.

**IMAGINE DRIVING**  
straight to your next appointment, or heading  
home, without ever having to process film or  
return for retakes.

**LESS EQUIPMENT, LESS WEIGHT, LESS TIME.**

**JUST RIGHT FOR THE ROAD...AND THE OFFICE.**  
Now featuring In-Line Erase for all models.

**SCANX® 12 PORTABLE**

- High Performance arrives at the stable for the Equine Veterinarian.
- Unsurpassed speed, ease, convenience and price.

**SPECIFICATIONS**

Dimensions: 17"W x 17"D x 16 1/2"H  
 In Softcase: 37 lbs.  
 Weight: 115V, 60 Hz  
 Electrical: Class 1 Laser Product. Compliance with FDA HHS 21 CFR 1040.10 and IEC 60825-1  
 Laser Classification: Phosphor Storage Plates: 8"x10", and 10"x12"  
 Imaging Media: Power Supply and USB Cable, Soft Case  
 System includes: Sold separately  
 Software:

**Minimum Computer Requirements**

CPU Speed: 1.66 GHz.  
 Operating System: Windows 2000 Service Pack 4 or later, Windows XP Professional Service Pack 1a or later

RAM: 1 GB  
 CD ROM Drive: CD-RW 52x24x52  
 Hard Drive: 60GB (2GB free for image acquisition, the rest for program files and image storage)

Monitor (1024 x 786 Resolution or higher): SVGA 17", contrast ratio 450:1, .22 dot pitch capability

Video Display Adapter: 128 MB RAM  
 Keyboard/Mouse: Standard keyboard and mouse  
 USB Port: USB 1.1

**Preferred Configuration**

CPU Speed: 2.8 GHz Pentium IV or higher.  
 Operating System: Windows 2000 Professional with Service Pack 4 or later, or Windows XP Professional with Service Pack 2

RAM: 4 GB  
 CD ROM Drive: CD-RW 52x24x52  
 Hard Drive: 120 GB. (2GB free for image acquisition, the rest for program files and image storage)

Monitor (1024 x 786 Resolution or higher): 17" or larger, contrast ratio 1000:1 or higher, .22 dot pitch capability

Video Display Adapter: 256 MB RAM  
 Keyboard/Mouse: Standard keyboard and mouse  
 USB Port: USB 2.0  
 Backup Device: Recommended

**NEW SCANX® 12 PORTABLE**

**THE MOST AFFORDABLE, PORTABLE CR IMAGING SYSTEM IS NOW THE LIGHTEST AND FASTEST, TOO.**

**ACQUIRE DIAGNOSTIC QUALITY IMAGES THE FIRST TIME.**  
**NEVER AGAIN RETURN FOR RETAKES.**

## INTRODUCING SCANX<sup>®</sup>12 PORTABLE

**WELCOME TO A NEW WORLD OF SPEED, CONVENIENCE AND EASE FOR TODAY'S EQUINE PRACTICE.** ScanX 12 Portable is an innovation in CR digital imaging systems, engineered to rapidly produce diagnostic quality images enabling you to make on-the-spot, definitive diagnoses, wherever you take it. We've added **In-Line Erase** and a **lightweight, soft case** to an already feature-packed system.

**X-Rays are an integral and repetitive part of your day. They require a substantial investment of your time and money, in supplies and maintenance. Finally, technology has delivered the ideal solution.**

# EQUINE'S FIRST AFFORDABLE, PORTABLE DIGITAL IMAGING SYSTEM. NOW WITH IN-LINE ERASE.

### SCANX 12 PORTABLE STREAMLINES THE ENTIRE IMAGING PROCESS

#### Here's How It Works.

ScanX 12 Portable utilizes computed radiography (CR). Replacing film, CR utilizes phosphor storage plates (PSP) which are flexible plastic plates coated with an x-ray sensitive phosphor material. Phosphor plates are durable and reusable thousands of times. Upon exposure to x-rays, the plate stores a latent image which is scanned by ScanX 12 Portable. Quickly scan and erase the plate in one continuous cycle with **NEW In-Line Erase**. Available computer software enhances the digital image to aid in diagnosis. Save images to your computer or to CD-ROM for easy retrieval and huge space savings in your office.

PSPs are available in 8 x 10 and 10 x 12 and can be used with your standard cassettes (without intensifying screens).

### SCANX 12 PORTABLE IS DESIGNED FOR YOUR NEEDS AND THE RIGORS OF LIFE ON THE ROAD

The conditions of a busy stable or track are quite different from your veterinarian office. ScanX 12 Portable is designed to operate in a rugged environment or in your car. Exceptionally lightweight, its new soft case with handle invites you to easily transport it from your vehicle to the barn or stable and back. A hard case is available.

### IMAGINE THE TIME, EFFICIENCY AND CONVENIENCE YOU'LL ADD TO EACH DAY

- No need to make multiple exposures, "just in case". Expect to acquire a single image, accurate the first time.
- No time wasted in a darkroom.
- No repetitive costs of film, chemistry and maintenance. No chemicals to handle, inhale and dispose of.
- Multiple images can be viewed in less than one minute.
- In-Line Erase means less equipment and less time.
- No return appointments to deliver the diagnosis.
- Available VetRay software allows you to enhance images with a wide variety of tools.

### ENHANCE IMAGES WITH A VARIETY OF SOFTWARE FEATURES

- Magnify, sharpen, invert, rotate and colorize.
- Measure anatomical parts.
- Annotate to share notes with colleagues.

### COMPARE AND SAVE

ScanX 12 Portable's "real time" radiograph quality is parallel to those delivered by large hospital grade digital imaging systems yet costs tens of thousands of dollars less.

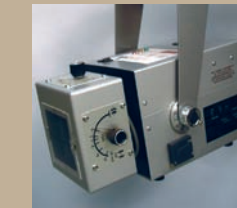

### HOW TO GET UP AND RUNNING

ScanX 12 Portable is sold, installed and serviced through ALLPRO Imaging's long standing, nationwide network of dealers. Contact your authorized ALLPRO Imaging dealer or call direct: 800.247.8324 ext 5611.

ScanX 12 Portable is designed, sized, and priced just right: Plug & Play set-up. Simple operation. Software designed for veterinary imaging is available.

**ALLPRO IMAGING**  
THE IMAGING EXPERTS  
[www.allproimaging.com](http://www.allproimaging.com)

1. Take an x-ray as you normally do, using a reusable phosphor plate in place of film.

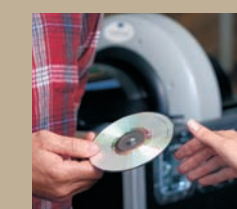

2. Easily feed plate into the ScanX 12 Portable.

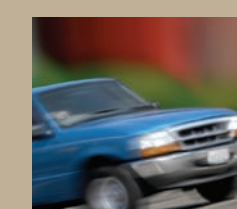

3. In 35 seconds, you and the owner are viewing the image.

4. Enhance the image to optimize detail for easier diagnosis and consulting.

5. Save the image to your laptop, annotate it, burn a CD or send over the internet to a colleague.

6. You're off to your next appointment. ScanX 12 Portable in your vehicle.
